

Hosted by the NSW Department of State and Regional Development,
and Sydney Ports Corporation.

'Future Freight' Seminar

Tuesday 5th August 2008

Time: 9.30 am to 12.30 pm,
(lunch provided afterwards)

Where: NSW Dept of State & Regional
Development, Level 47 MLC Centre, 19
Martin Place, Sydney, (Jumbana Room)

RSVP: Jessica Berry, (02) 9296 4784
jberry@sydneyports.com.au by Fri 25 Jul

There is a lot of talk about measuring & reporting Green House Gases (GHG), but how do you actually *reduce* GHG in the freight sector? And how can the sector adapt to an oil-scarce & carbon restricted future?

'Future Freight' discusses the drivers for change, and through reference to global best practice case studies, reveals new directions for the freight sector. Learn from the most successful initiatives to achieve reduced GHG emissions, congestion and air pollution.

- Freight infrastructure solutions.
- New thinking and policy frameworks.

Speaker: Ms Liz Boulton, Director of
'Logistick' – Sustainable Supply Chain
Solutions. (www.logistick.com.au)

Ms Boulton recently completed a Masters of Environment, focussing upon 'sustainable freight.' Her expertise in this emerging field saw her win the Victorian "Women in Freight" Award. She has an National and International supply chain management background.
