When customer service counts

The Sea Freight Council of Queensland
in conjunction with AQIS

Invite you to a workshop on
AQIS cleaning requirements for imported machinery
WHAT IS MEANT BY “CLEAN”

Date: 25th February 2004

Time: 12.30pm registration for 1pm start
3.30 pm finish

Where: Chalmers Industries Pty Ltd.
26 Whimbrel Street
Fisherman Islands

This workshop is designed to assist any Freight Forwarder and their staff as well as second hand machinery importers to recognise the difference between what is “AQIS clean” and what is not. The workshop will be over a period of 2-3 hours and the following topics will be covered by representatives from AQIS.

- What is meant by clean
- What constitutes a re-export
- Responsibilities for the Importer
- Responsibilities for the Freight Forwarder
- Offshore Inspections
- Overseas cleaners
- Proof of Cleanliness
- Wiring harness/looming
- OH&S
- Most common types of machinery re-exported.

RSVP: sfcq@powerup.com.au or phone Rhonda on 3895 2355 by 22nd February 2005

The numbers are limited so please respond quickly to assure your attendance. Acknowledgements will be forwarded to those attending.

This workshop is proving to be popular so please book early. If there are too many for the first workshop we will be running another session to cater for those others.
