

BULLETIN

CHANGES TO STORAGE OF IMPORT CARGO

To All Freight Forwarders: -

The commencement of storage for Import cargo has in the past been restricted to only being applied from Mon-Fri normal business days eg: if cargo arrived in on Friday storage would not commence until the following Tuesday. As AaE International has now been opening our business during the weekend's for over 6 months to assist the industry with the delivery of all import cargo, we will now be introducing the commencement of storage 24hours after midnight on the day of arrival, on all inbound flights. Thus removing the weekend free time.

Please be advised that this change will come into effect from Saturday the 16th October 2004.

Best Regards,

International Cargo Team BRISBANE
