

**EagleEye e-Notice 4 August 2004
SLAC Support for new FWB/FHL Messaging (IATA
Agents only)**

Due to new IATA Cargo Reporting Requirement, there is a new field on the HAWB and MAWB entry screens at the bottom of the rating section to enter in the SLAC or inner pack count for the shipment.

This field appears after a reindex in versions 10.1811 and 9.7323.

Anyone who gets this version will get a message upon entering the MAWB and HAWB entry screens telling them that they should run a reindex to get access to these fields, but will be allowed to continue to operate as per normal until they run the reindex.

This data is then reported to the airlines via the FWB and FHL messaging systems as required by IATA.

If you would like to receive this upgrade, please contact the Help Desk on +61 2 9025 1111 or email support@edi.com.au.
